Timing Belt Replacement On Honda/Acura V6 Engines. The first step in timing belt replacement is selling the job. For many years, the industry standard for belt replacement was 60,000 miles. Those of us with more experience can even remember when 30,000 miles was the norm. Over the years, the materials and processes used in timing belt manufacturing have allowed Honda to move that interval to 90,000 miles and 105,000 miles.

the large, heavy performance cars of their parents' generation and instead embraced what has become known as the "sport compact"--smaller, lightweight, modern sports cars of predominantly Japanese manufacture. These cars respond well to performance modifications due to their light weight and technology-laden, high-revving engines. And by far, the most sought-after and modified cars are the Hondas and Acuras of the mid-'80s to the present. An extremely popular method of improving vehicle performance is a process known as engine swapping. Engine swapping consists of removing a more powerful
