Hotel Housekeeping is a comprehensive textbook specially designed to meet the needs of students pursuing courses in hotel management.

Hotel Housekeeping: Operations and Management aims to meet the requirements of students of hotel management, and to fill the gap left unattended by the existing books on the subject. The book provides a detailed analysis of the coreconcepts, which are further reinforced with the help of illustrations, charts, diagrams etc.The book pays special attention to emerging area, such as ecotels, as also the processes followed by the industry.

This book offers an updated view of the panning, provision and service of accommodation in hotels, hostels, hospitals and similar establishments. It offers a new understanding of the changing role of the housekeeper, which now involves not only a greater knowledge of the technical skills required but also an awareness of management. New materials, equipment and methods have become available and the authors take these into account with reference to changing trade practices. The impact of new technology and the latest health and safety requirements are also considered. This edition will be suitable for students on the City and Guilds 708 Accommodation Services course and 705 General Catering course schemes, FIH (formerly HCIMA) and BTEC courses.

The second edition of Housekeeping Management is written from a management perspective of the executive housekeeper in the lodging industry. The overarching concept of the text spotlights three major areas of expertise required for the success of lodging professionals: management of resources, administration of assets, and knowledge of technical operations. The text explores the role of the housekeeping department in hotel/lodging operations, and focuses mainly on the effective communication between the housekeeping, front office, and engineering and maintenance staff. This edition will have the same focus on the management- and administration-based philosophy from the 1st Edition, but with a stronger focus on the engineering aspects of housekeeping. The book also incorporates new concepts of energy conservation and risk management to address the latest sustainability and security trends in the industry, as well as updated information on guestroom technology.

"Accessibly written and thoughtfully edited, making it essential reading for those studying hospitality and embarking on a career in the industry." - Peter Lugosi, Oxford School of Hospitality Management "This text is a fascinating read... Roy Wood has spent 25 years teaching, researching and writing on the hospitality industry - much of that learning is here in this book." - Erwin Losekoot, Auckland University of Technology "All different aspects of the hospitality industry are elaborated on... All in all a wonderful course book for for our students!" - Claudia Rothwangl, ITM College This book covers the major concepts students are likely to encounter throughout their study within the hospitality management, giving a comprehensive and up-to-date overview as well as providing engaging everyday examples from around the world. A leading figure in the field, Roy Wood has successfully gathered international contributors with direct experience of hospitality management and the hospitality industry as a whole, ensuring the academic, geographical and practical integrity of the book. Key Concepts in Hospitality Management is written for undergraduate students and those studying short postgraduate or executive education courses in hospitality management, events management, tourism management and leisure management.
