IRC Hacks on Apple Books

The IRC Chat option will appear in the Window menu in your browser. Selecting this will launch the client. You can also use the irc command in the URL bar. Typing just irc: will launch ChatZilla. You can also type a full URL, like irc://irc.mozilla.org, and that will take the additional step of connecting to the specified server. These URL methods are currently the only way to launch ChatZilla if you are using the Mozilla Firebird web browser.

1. Connecting to IRC - IRC Hacks [Book]

An IRC script that can do mass deops quickly and easily (preferibly one that lets you press an F# (function) key to do mass deops, or one that automatically mass deops once you gain ops). You don't want to have to start going through popup menus since you have to do this quickly. An IRC script that can do mass CTCP versioning.

IRC Hacks : Paul Mutton : 9780596006877

<p>IRC (Internet Relay Chat) may very well turn out to be the world's most successful hack. In 1988, Jarkko Oikarinen wrote the original IRC program at the University of Oulu, Finland. As he says in his foreword, "IRC started as one summer trainee's programming exercise. A hack grew into a software development project that hundreds of people participated in, and then became a worldwide ...
