Now in its third edition, *It's My Life Now* is a guide for survivors who have left an abusive relationship. It addresses—in clear, non-threatening language—various issues associated with abuse and violence, including post-relationship emotions, psychological impact, dealing with children, personal safety, legal problems, and financial security. Each chapter dismantles common myths about being in and leaving an abusive relationship and contains activities for self-exploration that survivors can complete as they navigate a new life free from abuse. Recommended by the National Coalition of Domestic Violence, this book is designed to benefit any survivor, no matter how much time has passed.

Those who have never experienced an abusive or violent relationship often believe that upon finding a way out, victims’ difficulties are solved: their life is good, they are safe, and recovery will be swift. However, survivors know that leaving is not the end of the nightmare -- it is the beginning of an often difficult and challenging journey toward healing and happiness. *It's My Life Now* offers readers the practical guidance, emotional reassurance, and psychological awareness that survivors of relationship abuse and domestic violence need to heal and reclaim their lives after leaving their abusers. Since its publication in 2000, *It's My Life Now* has been highly successful as a working manual for survivors who are starting their lives over after an abusive relationship. This valuable book combines direction on practical and emotional issues with worksheets and self-exploration exercises. Now, in the second edition, Dugan and Hock include updated information and resources while encompassing a wider range of individuals and the relationships in which abuse and violence occur. The new edition also provides a new emphasis on safety assessment, which has increasingly been shown to be a critical factor in recovery. In addition, this new edition includes current resources and information about organizations for victims along with revised and enhanced strategies to help survivors move forward on the path of recovery.

If she wants a future with him, she'll have to make peace with her past. Jenna's never let her cerebral palsy get her down. But when she discovers that her condition was actually caused by an injury at birth, she's furious with her parents, who withheld the truth. And as they push her to get yet another difficult procedure, Jenna feels her control over her life starting to slip. Enter Julian, Jenna's childhood crush. He's just moved back to town, and he's struggling in school, so Jenna reaches out to him—anonymously—to help. Soon, their conversations are about so much more than class. She's falling for him all over again, hard and fast. But would Julian still be interested in her if he knew who she really was? And can she find a way to take back her own narrative before she pushes away everyone she loves? Also by Stacie Ramey: *The Sister Pact* *The Homecoming* *The Secrets We Bury*

Live boldly and act on your most powerful beliefs with this life-changing guide to faith, positive thinking, and spiritual fulfillment. Pastor Joel Osteen asks everyone to examine what he or she really believes. Why is this important? Because we will become what we believe. Our beliefs will prove either a barrier or vehicle as we strive to go higher, rise above our obstacles, and to live in health, abundance, and victory. In *Your Best Life Now*, Osteen says, "I am what I am today because of what I believed about myself yesterday. And I will be tomorrow what I'm believing about myself right now. God sees us as more than conquerors, able to fulfill our destiny. We need to see ourselves through the eyes of our Creator." He says that our self-image should mirror exactly what God says about us, not what we feel or think. And he encourages readers to be people of faith, for if you can see the invisible, God will do the impossible.

My Life Now and Then. Carla is influenced by the early impression of prayer and the written word. Looking back in time, she believes something providential occurred during the innocence of her childhood that seemed to cement unknowingly, a legacy of rich faith. Somehow through the indwelling Holy Spirit into the reservoir of her soul. Subsequently, with time, it was awakened to action as the inevitable—youthful folly, infidelity, divorce brokenness, unforgiveness, and various atrocities assailed the trials of her life. Carla turned to discover the one tool that was hidden and somehow rose to prowess and challenged the warfare of uncertainty. This tool has landed her safely and secured like an orchid that is washed, tossed, and strewn on the sand tides of life yet filled with miracles. Surprisingly, on the sand tides of her life experiences, she discovered her calling. Though, frightened by the call, she answered for service! Now on the journey to serve, she realize that she was inspired from a place of concern for fellow travelers on the trail of life. With her glass half full, Carla hopes her work in this print will be like a lighthouse that is fully wicked to emit light and navigate each reader to the path that liberates through her presence on each page. Amazing grace!

An all-access, firsthand account of the life and music of one of history's most beloved bands--from an original mastering engineer at Abbey Road Geoff Emerick became an assistant engineer at the legendary Abbey Road Studios in 1962 at age fifteen, and was present as a new band called the Beatles recorded their first songs. He later worked with the Beatles as they recorded their singles “She Loves You” and “I Want to Hold Your Hand,” the songs that would propel them to international superstardom. In 1964 he would witness the transformation of this young and playful group from Liverpool into professional, polished musicians as they put to tape classic songs such as “Eight Days A Week” and “I Feel Fine.” Then, in 1966, at age nineteen, Geoff Emerick became the Beatles’ chief engineer, the man responsible for their distinctive sound as they recorded the classic album *Revolver*, in which they pioneered innovative recording techniques that changed the course of rock history. Emerick would also engineer the monumental Sgt. Pepper and Abbey Road albums, considered by many the greatest rock recordings of all time. In *Here, There and Everywhere* he reveals the creative process of the band in the studio, and describes how he achieved the sounds on their most famous songs. Emerick also brings to light the personal dynamics of the band, from the relentless (and increasingly mean-spirited) competition between Lennon and McCartney to the infighting and frustration that eventually brought a bitter end to the greatest rock band the world has ever known.

She thought, brightly, This is the worst life decision I have ever made! And she marvelled at herself for a while, at the mystery of this person who'd just done this bizarre, inexplicable thing. Margot meets Robert. They exchange numbers. They text, flirt and eventually have sex - the type of sex you attempt to forget. How could one date go so wrong? Everything that takes place in *Cat Person* happens to countless people every day. But *Cat Person* is not an everyday story. In less than a week, Kristen Roupenian's *New Yorker* debut became the most read and shared short story in their website's history. This is the bad date that went viral. This is the conversation we're all having. You Know You Want This, Kristen Roupenian's debut collection, will be published in February 2019.

A time to reflect on my seventy years of life. Maybe some folks will be interested in my life and the folks I have met, or maybe not. This is a non-tradiitonal memoir, filled with alphabetical vignettes nit chronological ones. I have made a foray into fiction with an asterisk: in those cases where I have marked the vignette as fictional, it might be 100 percent not true, but in many cases I knew of, was part of, or heard from others about the story itself. At any rate, the entire book is my recollection of things past, and as in all recollections, the more distant the memory the clearer the details.
