The Terror: Infamy - Rotten Tomatoes

The Terror is a 2007 novel by American author Dan Simmons. It is a fictionalized account of Captain Sir John Franklin's lost expedition of HMS Erebus and HMS Terror to the Arctic, in 1845-1848, to locate the Northwest Passage. In the novel, while Franklin and his crew are plagued by starvation and illness, and forced to contend with mutiny and cannibalism, they are stalked across the bleak Arctic landscape by a monster. Most of the characters featured in The Terror are actual members of ...

Watch The Terror Season 1 | Prime Video

The Terror is the most infamous era of the French Revolution, when the leaders of the country decided to rule through Terror and mass killing.

The Terror - History of the French Revolution

During the Terror, the Committee of Public Safety (of which Maximilien de Robespierre was the most prominent member) exercised virtual dictatorial control over the French government. In the spring of 1794, it eliminated its enemies to the left (the Hébertists) and to the right (the Indulgents, or followers of Georges Danton).

The "masterfully chilling" novel that inspired the hit AMC series (Entertainment Weekly). The men on board the HMS Terror – part of the 1845 Franklin Expedition, the first steam-powered vessels ever to search for the legendary Northwest Passage – are entering a second summer in the Arctic Circle without a thaw, stranded in a nightmarish landscape of encroaching ice and darkness. Endlessly cold, they struggle to survive with poisonous rations, a dwindling coal supply, and ships buckling in the grip of crushing ice. But their real enemy is even more terrifying. There is something out there in the frigid darkness: an unseen predator stalking their ship, a monstrous terror clawing to get in. "The best and most unusual historical novel I have read in years." –Katherine A. Powers, Boston Globe

Suspense fiction. The men on board Her Britannic Majesty's Ships Terror and Erebus had every expectation of triumph. They were part of Sir John Franklin's 1845 expedition – as scientifically advanced an enterprise as had ever set forth – and theirs were the first steam-driven vessels to go in search of the fabled North-West Passage. But the ships have now been trapped in the Arctic ice for nearly two years. Coal and provisions are running low. Yet the real threat isn't the constantly shifting landscape of white or the flesh-numbing temperatures, dwindling supplies or the vessels being slowly crushed by the unyielding grip of the frozen ocean. No, the real threat is far more terrifying. There is something out there that haunts the frigid darkness, which stalks the ships, snatching one man at a time – mutilating, devouring. A nameless thing, at once nowhere and everywhere, this terror has become the expedition-'s nemesis. When Franklin meets a terrible death, it falls to Captain Francis Crozier of HMS Terror to take command and lead the remaining crew on a last, desperate attempt to flee south across the ice. With them travels an Eskimo woman who cannot speak. She may be the key to survival – or the harbinger of their deaths. And as scurvy, starvation and madness take their toll, as the Terror on the ice become evermore bold, Crozier and his men begin to fear there is no escape.

Stephen King hailed Dan Simmons' bestselling novel as 'a brilliant, massive combination of history and supernatural horror' and it's now a chilling 10-part AMC Original TV series from Ridley Scott.The most advanced scientific enterprise ever mounted, Sir John Franklin's 1845 expedition in search of the fabled North-West Passage had every expectation of triumph. But for almost two years his ships HMS Terror and Erebus have beentrapped in the Arctic ice. Supplies of fuel and food are running low. Scurvy, starvation and even madness begin to take their toll. And yet the real threat isn't from the constantly shifting, alien landscape, the flesh-numbing temperatures or being crushed by the unyielding, frozen ocean. No, the real threat is far more terrifying. There is something out there in the frigid darkness. It stalks the ships and snatches men. It is a nameless thing. At once nowhere and everywhere, this terror has become the expedition's nemesis . . .

Several "pieces first published in The New Yorker recall the path terror in the Middle East has taken from the rise of al-Qaeda in the 1990s to the recent beheadings of reporters and aid workers by ISIS ... They include an ... impression of Saudi Arabia, a kingdom of silence under the control of the religious police; the Syrian film industry, then compliant at the edges but already exuding a feeling of the barely masked fury that erupted into civil war; [and] the 2006-11 Israeli-Palestinian conflict in Gaza, a study in disparate values of human lives. Others continue to look into al-Qaeda as it forms a master plan for its future, experiences a rebellion from within the organization, and spins off a growing web of terror in the world"--

"An impressive combination of diligence and verve, deploying Ackerman's deep stores of knowledge as a national security journalist to full effect. The result is a narrative of the last 20 years that is upsetting, discerning and brilliantly argued." –The New York Times "One of the most illuminating books to come out of the Trump era." –New York Magazine An examination of the profound impact that the War on Terror had in pushing American politics and society in an authoritarian direction For an entire generation, at home and abroad, the United States has waged an endless conflict known as the War on Terror. In addition to multiple ground wars, it has pioneered drone strikes and industrial-scale digital surveillance, as well as detaining people indefinitely and torturing them. These conflicts have yielded neither peace nor victory, but they have transformed America. What began as the persecution of Muslims and immigrants has become a normalized, paranoid feature of American politics and security, expanding the possibilities for applying similar or worse measures against other targets at home. A politically divided country turned the War on Terror into a cultural and then tribal struggle, first on the ideological fringes and ultimately expanding to conquer the Republican Party, often with the timid acquiescence of the Democratic Party. Today's nativist resurgence walked through a door opened by the 9/11 era. Reign of Terror will show how these policies created a foundation for American authoritarianism and, though it is not a book about Donald Trump, it will provide a critical explanation of his rise to power and the sources of his political strength. It will show that Barack Obama squandered an opportunity to dismantle the War on Terror after killing Osama bin Laden. That mistake turns out to have been portentous. By the end of his tenure, the war metastasized into a broader and bitter culture struggle in search of a demagogue like Trump to lead it. A union of journalism and intellectual history, Reign of Terror will be a pathbreaking and definitive book with the power to transform how America understands its national security policies and their catastrophic impact on its civic life.

Recounts the dramatic true story of the Discalced Carmelite nuns of Compiègne, martyred during the French Revolution's "Great Terror," and known to the world through their fictional representation in Gertrud von Le Fort's Song at the Scaffoldand Francis Poulenc's Dialogues of the Carmelites. Includes index and 15 photos. More Information At the height of the French Revolution's "Great Terror," a community of sixteen Carmelite nuns from Compiègne offered their lives to restore peace to the church and to France. Ten days after their deaths by the guillotine, Robespierre fell, and with his execution on the same scaffold the Reign of Terror effectively ended. Had God thus accepted and used the Carmelites' generous self-gift? Through Gertrud von Le Fort's modern novella, Song at the Scaffold, and Francis Poulenc's famed opera, Dialogues of the Carmelites, (with its libretto by Georges Bernanos), modern audiences around the world have become captivated by the mysterious destiny of these Compiègne martyrs, Blessed Teresa of St. Augustine and her companions. Now, for the first time in English, William Bush explores at length the facts behind the fictional representations, and reflects on their spiritual significance. Based on years of research, this book recounts in lively detail virtually all that is known of the life and background of each of the martyrs, as well as the troubled times in which they lived. The Compiègne Carmelites, sustained by their remarkable priores, emerge as distinct individuals, struggling as Christians to understand and respond to an awesome calling, relying not on their own strength but on the mercy of God and the guiding hand of Providence.

An incisive new interpretation of the French Revolution and its violent upheaval looks at troubling parallels between the Terror and the rise of today's political and religious fundamentalism, arguing that the violence of the French Revolution resulted from dogmatic and fundamental thinking that led to a pointless bloodletting. Reprint.

"The Terror: A Mystery" by Arthur Machen. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten-or yet undiscovered gems-of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

In the aftermath of September 11th After the Terror asks what terrorism can tell us about ourselves and our moral obligations. It pits a 'morality of humanity' – a morality of sympathy, generosity and fellow-feeling – against conventional, unreflective morality. In this expanded new paperback edition, Ted Honderich has more to say of the idea of 'terrorism for humanity' – political violence committed to rescuing people from wretchedness and deprivation. In this philosophy that goes against a consensus of civility about lives we are destroying and homelands we are helping to violate. Britain's outstanding radical philosopher requires us to think more carefully about our own existence and our trust in our democratic governments.

A compelling account of the French Revolution details the founding of the French Republic and the fanaticism of a powerful political clique, the Jacobin Club, that inflicted a reign of terror on their compatriots that transformed France into a totalitarian slaughterhouse that claimed thousands of lives. 20,000 first printing.
