were tested to determine the effects of various fuel loading densities and configurations on emissions performance. The tests conducted and reported on here were designed to compare the performance of 4 different stove designs with 4 different fuel loading procedures. In addition,

# Acces PDF Warnock Hersey Wood Stove Manual

the data from the original EPA certification tests of each stove were obtained. The catalytic units tested had similar firebox sizes but varied in their air control systems with one being thermostatically controlled by a bimetal spring and the other having a fixed manual control. The non-catalytic
