In outlining the process for good writing, John Trimble focuses not only on the writing process but on the definition of good writing. His style is evidence that he knows his stuff: rather than being stiff, his writing is easy to read and easy to access. In fact, he hits the bulls-eye when he states that good writers are also good readers.

Writing Style "Giving the mundane its beautiful due" "A&P" author John Updike is known for the idea that seemingly ordinary aspects of American life (like grocery shopping) are actually quite fascinating. He called this, famously, "giving the mundane its beautiful due" (source).

This bestselling brief text is for anyone who needs tips to improve writing. Writing with Style is storehouse of practical writing tips—written in a lively, conversational style. This text provides insight into: how to generate interesting ideas and get them down on paper; how to write a critical analysis; how to write a crisp opener; how to invigorate a dull style; how to punctuate with confidence; how to handle various conventions—and much more.

This bestselling brief supplementary text is for any course where students write. A storehouse of practical writing tips written in a lively, conversational style. Provides new insight into: how to generate interesting ideas and get them down on paper; how to write a critical analysis; how to write a crisp opener; how to invigorate a banal style; how to punctuate with confidence; how to handle various conventions and much more. Students learn to develop a "writer's sense": the book demonstrates that writing is really applied psychology since it is essentially the art of creating desired effects. Provides an explanation of what effects are desirable and how to create them. An exceptional book that works successfully on several levels simultaneously. Readily accessible to college freshman, yet sophisticated enough to delight a senior English Honors class. Unusually flexible, the book can function equally well as both a self-teaching text (in literature courses, etc.) and a companion text (in composition and journalism courses).

A storehouse of practical writing tips, written in a lively, conversational style. Readers learn to develop a “ writer's sense ” : the book demonstrates that writing is really applied psychology since it is

essentially the art of creating desired effects. Provides an explanation of what effects are desirable and how to create them. An exceptional book that works successfully on several levels simultaneously. Provides new insight into: how to generate interesting ideas and get them down on paper; how to write a critical analysis; how to write a crisp opener; how to invigorate a banal style; how to punctuate with confidence; how to handle various conventions, and much more. For anyone who needs a reference guide on writing.

'We cannot separate the writer from the writing. Nor should we try. Both our writing process and our writing products need to carry our unique signature, a bit of our personality.' - From Writing and Personality How you write - what works for you and what makes sense to you - depends on who you are, your personality, your preferences, your style of thinking and feeling. If you're extraverted and grounded in your senses, your natural writing style will be far different from the person who tends to be introverted and intuitive. Not only that, how you learn to write will be different as well. Here's a book that taps into the natural strengths of your personality and helps you use those strengths in your writing. Whether you're a student, businessperson, or professional writer, this book will help you: engage your natural writing voice; adapt to styles that are less natural; overcome writer's block; and find the right words for communicating effectively, whatever your assignment.

“ A rich, generous book about writing and reading and Kurt Vonnegut as writer, teacher, and friend . . . Every page brings pleasure and insight. ” —Gail Godwin, New York Times bestselling author Here is an entirely new side of Kurt Vonnegut, Vonnegut as a teacher of writing. Of course he ’ s given us glimpses before, with aphorisms and short essays and articles and in his speeches. But never before has an entire book been devoted to Kurt Vonnegut the teacher. Here is pretty much everything Vonnegut ever said or wrote having to do with the writing art and craft, altogether a healing, a nourishing expedition. His former student, Suzanne McConnell, has outfitted us for the journey, and in these 37 chapters covers the waterfront of how one American writer brought himself to the pinnacle of the writing art, and we can all benefit as a result. Kurt Vonnegut was one of the few grandmasters of American literature, whose novels continue to influence new generations about the ways in which our imaginations can help us to live. Few aspects of his contribution have not been plumbed—fourteen novels, collections of his speeches, his essays, his letters, his plays—so this fresh view of him is a bonanza for writers and readers and Vonnegut fans everywhere. “ Part homage, part memoir, and a 100% guide to making art with words, Pity the Reader: On Writing with Style is a simply mesmerizing book, and I cannot recommend it highly enough! ” —Andre Dubus III, #1 New York Times bestselling author “ The blend of memory, fact, keen observation, spellbinding descriptiveness and zany characters that populated Vonnegut ’ s work is on full display here. ” —James McBride, National Book Award-winning author

This detailed, example-driven guide illustrates how much technical communicators can do to make written texts more suitable for a global audience. You'll find dozens of guidelines that you won't find in any other source, along with thorough explanations of why each guideline is useful.

Good Style explains the tactics that can be used to write technical material in a coherent, readable style. It discusses in detail the choices of vocabulary, phrasing and sentence structure and each piece of advice is based on evidence of the styles preferred by technical readers and supported by many examples of writing from a variety of technical contexts. John Kirkman draws from his many years of experience lecturing on communication studies in Europe, the USA, the Middle East and Hong Kong, both in academic programmes and in courses for large companies, research centres and government departments. Good Style has become a standard reference book on the shelf of students of science, technology and computing and is an essential aid to all professionals whose work involves writing of reports, papers, guides, manuals or on-screen texts. This new edition also includes information on writing for the web and additional examples of how to express medical and life-science information.

Craft an Emotionally Charged Story That Will Resonate with Readers Emotional impact shouldn't be dropped into your novel as an afterthought or forced upon your story with a pair of pliers and an iron grip. It should be carefully sewn into the fabric of the story to create tension-filled moments that will keep readers turning pages. In Writing with Emotion, Tension, & Conflict, you'll learn how to layer emotional moments and deep connections to create a tapestry filled with conflict, pathos, and genuine feeling. • Create emotional depth, conflict, and tension in your novel by carefully crafting your plot, characters, setting, word choice, and more. • Learn what makes readers "tick"--and what will elicit the strongest emotional responses. • Write believable, emotional scenes and dialogue--and trim away the sappiness. When writing a novel, your ultimate goal is to make readers smile, weep, rage, and laugh right along with your characters. Writing with Emotion, Tension, & Conflict will show you how to evoke a multitude of feelings in your readers--and keep them coming back for more.
